

Honeoye Falls-Lima Schools

**Art Boosters  
April 1, 2008**

Attendance: Cindy Zauski, Tris Downer, Bonnie Foster, Jennifer Briggs Ellen Hallahan  
Chris, De Turck, and Lisa Moosbrugger

**Kiln**

John Tracey spent time with the Art Department on the last conference day. He inspected the current kiln housed at the High School. It has been damaged in transit and can not be considered workable. Bonnie and John will look at the Mansfield, kiln available to be donated, to see if it is workable. John is willing to assist us in making a great ceramics program. If that kiln does not work out we can look into using a Booster's Grant to fund its purchase

**Cougar Creations**

- Donations are coming in for the auction. (53 items to date)
- Bonnie's students will help unload the donations upon delivery
- Paperwork is completed for all of the donations thus far received.
- Ellen will bring the cash box and a calculator.
- Tris will take care of the change for the cash box.
- Posters are printed and ready to go. They will be sold out of the art room.
- Organizers are looking into the possibility of splitting the Cougar Creations chair position. One person could organize the art component and someone else could organize the music portion. This may be more appealing to those considering the job. Since art and music have different needs this may make sense.

**Cougar Creations Poster Contest**

- Emma Denton will be presented with her poster contest award on Friday night during the Cougar Creations Festival.
- Next year's poster will be used to advertise the event.

**Art DIU and HFMP Display**

The K-5 art DIU proposed display space at the Honeoye Falls Market Place. Deric West and Amy West made this happen in an area set aside for dining at the HFMP. In March Erik Van Bork installed the showcase areas for display. Cindy placed art in them to start the display circuit. One display box is showcasing the Cougar Creation's Poster. HFL art will be displayed from October through June. The Mill will display the remainder of the open time. On the conference day art staff will develop a schedule to continually refresh the art work. Cindy Z. will get a picture and information to Allison Armstrong

for possible inclusion in the Sentinel. Cindy will also send a thank you note from the Art Boosters and the Art Department.

### **Master Facilities Committee**

Tris received a letter from the district updating her on the current Capital Project updates. The first phase of HFL's capital project plan was approved in Albany and under budget. Many improvements in the next phase will begin this summer. Ed Johnson will be the new finance director overseeing the projects. No meeting for the long plan has been announced, as yet.

### **Next Agenda**

- Cougar Creations update
- Dates for next year for Art Department and Boosters
- Capital Project long term project
- Mendon Arts Festival
